Boys' Ranch

All differences between San Francisco and San Mateo counties standing in the way of establishment of San Francisco's Log Cabin Ranch for delinquent boys on the Peninsula were dissolved, by legal opinions, Monday, and the ranch permit was granted by the San Mateo County Board of Supervisors.

The San Francisco Board of Supervisors was to sign the agreement the same afternoon, thus bringing to a quick and final conclusion the negotiations for establishment of the ranch on a 640-acre site near La Honda. San Francisco had already made arrangements to lease the ranch and remove the Log Cabin Ranch from Mendocino county.

"Where, Oh Where?--"

Little Jean Hone, San Carlos, decided to go for a walk, Thursday, but she forgot that when very little girls go for walks these excursions should be very short and close to home. Jean took a nice LONG walk in the hills and it looked for a while like she never would get home.

The two-and-one-half year old girl was away from her parents, Mr. and Mrs. Fred Hone, Cranfield road, San Carlos, for four hours when her mother frantically called the police. As night neared sheriff's deputies, jail trusties, county firemen, boy scouts and San Carlos police were all involved in the search for the elusive child.

Jean had been playing with other children and elected to stay in the brush hut they had built while the other children played elsewhere. When the children returned she was gone.

It was her mother who eventually found her climbing up a high hill, crying a little, but unhurt except for a few scratches.

County Housing

Shortage of 5000 dwellings in San Mateo county by 1950 was forecast today by Wayne E. Johnson, executive director of the county housing authority. This was announced at the completion of the survey of substandard housing and application for $153,000 from the United States Housing Authority to build the first low-rent housing units in the county.

First tangible results of the housing program in the county will be the construction of some 30 new homes in San Mateo, to replace substandard structures within the next few months. Instead of constructing flats, apartments or rows of homes as other cities have done, the county authority has decided to erect one-story single units and duplexes on scattered sites.

"There's Something About A Soldier"-- You Bet There Is!

You know that warm feeling you have (and we don't mean sunburn) when you've been especially kind to someone? Well, word comes from Captain Ross McLeod, recreation officer at Fort Scott, that you can invite a couple of soldiers to come with you on your family picnic or beach party. You'll have the above-mentioned feeling and at the same time be doing something for your country; and you'll make some men friends, too.

The boys in uniform around the Bay region are often "downright homesick," according to McLeod, and would be awfully grateful for a day's outing as part of a family group.

If you like the idea of doing something for the boys who are ready to do so much for you, just call SKyline 1321, Local 9. Captain McLeod will provide the names of the men and where you can pick them up.

He also stated that they are in need of twenty or thirty old radios and any current magazines you can spare. Pianos, phonographs, records, and books will also be gratefully accepted.

Veteran City Employee Says "Goodbye"

Fenstermaker Retires From Street Dept.

One of the best-liked veterans of the Street department of Daly City, J. V. "Vic" Fenstermaker, retired this month after almost twelve years of service. He first came into the employ of the city, August 15, 1929.

Fenstermaker, who was foreman of the street cleaning department, intends to use his well-earned free time working a mining claim he owns in Nevada.

Arthur Bodien, superintendent of the Street and Water department, in commenting on Fenstermaker's retirement, said, "I've always found Vic a most faithful and efficient employee-- a darn fine worker! I and the whole department will miss him."

Fenstermaker's place has been taken by Tom Callan. He had been in charge of street-cleaning and the upkeep of the sewers, besides being helpful in many miscellaneous jobs. He lives at 998 Hanover street.

Daly City Band To Play For Fair

The strains of martial music which will regale Napa county fair-goers are being practised and polished this week by the Daly City band under the leadership of George E. Brenner. The local musical group will be the official band for the fair, which begins Saturday and will continue through Sunday.

Also getting ready to take part in the fair program are two other Daly City entertainment groups, Miss Rose's majorettes and the Beeson Trio. Accompanying Miss Rose will be Darlene Rogentine, Elaine Williams and Dorothy Langensand, four cute baton-twirlers.

The Beeson trio will take part with the band. They will present instrumental and vocal numbers. The band will lead the huge annual street parade, consisting of over five thousand participants.

DRAFT

Supplemental Call Takes Five Men From This Area

Five men were called by the local draft board, yesterday, in a special supplemental call to fill out quotas not attained due to the change in age limit for draftees and the increased leniency for married men.

They are Alois Henry Lang jr., 14 Alp street, Daly City; Angelo Arthur Nessi, 205 Chapman avenue, Daly City; Alfred James Frugoli, South San Francisco; and Amante Vittorio Funai, Colma.

The fourteenth call will be made Monday, August 4, and will also be for five men. The groups have been small, according to Mrs. Isabelle Flynn, in charge of the local draft office, because of the credit the area has been given for volunteers.

At the board meeting last night in the city hall the main current business of re-classifying men who have been in the service and married men was taken up. Men who have married since they registered for the draft will be obliged to prove that they did not marry to escape the draft, according to Mrs. Flynn. Fred Collins is in charge of the board in place of Dr. J. C. McGovern, who has gone on his vacation. Four members of the board, Mrs. Flynn; J. J. Jennings of South San Francisco; Charles Drew, South San Francisco; and William Jonas, Brisbane, were present at a district meeting at the Veteran's Memorial hall in San Francisco, July 15. Among the topics discussed was the possibility that the position on the draft board may be made a civil service job.

To Begin Work On Bepler Sidewalks

Work on the sidewalks for Bepler street will begin in approximately a week, according to A. J. Bodien, Street and Water departments superintendent.

The streetwork has not yet progressed beyond the grading stage. The grading is a difficult job because of the extremely rocky nature of the soil.

Several weeks of work remain before paving will begin. Waterlines, laterals, meters, two fire hydrants, and a fire alarm box must be installed.

Form Defense Council To Serve San Mateo County

With the formation of a county defense council for San Mateo county, national organization for defense has spread further toward its goal of complete cooperation of the largest and the smallest political units.

The board of supervisors has instructed County Clerk W. H. Augustus to ask all incorporated cities in the county to name a representative each to the council.

Mayor John J. Fahey of Daly City has not yet received this request and will act upon its receipt. The county defense council will have administrative authority under state law. The board of supervisors will name one of their own number to the council and any other representative from the county it considers necessary.

Mayor F. H. LaGuardia of New York, director of the Office of Civilian Defense, said at his first press conference: "It will take some time to accomplish what I believe is the most important, immediate task; and that is to weave all the loose ends into a solid figure. At this time all over the country there are literally hun-

Heighten Efficiency Of Water Dept.

The efficiency of the Daly City Water department was heightened last week when A. J. Bodien, superintendent, purchased a "Leak Vibroscope," which is an exceptionally sensitive instrument for detecting leaks in water mains and meters.

This instrument is used in all large cities, according to Bodien. When the steel rod on the device is in contact with, for instance, a fire plug, the operator may use the attached ear-phones to hear the leak. Bodien came to know of this instrument when it was used by a San Francisco engineer to find a leak in the main under Mission street. The engineer used the instrument to come within six inches of where the leak was subsequently found to be.

ALUMINUM

Housewives To Aid In Drive To Make United States Safe

Women are looking with new interest at their old aluminum utensils these days. There's a distinct possibility that these lowly kitchen pots and pans may become part of an airplane, or tank, or battleship.

The aluminum drive, being conducted this week throughout the nation to make up for shortages in that important metal, started in Daly City, Monday.

A. J. Bodien, who has been delegated by Mayor John J. Fahey to take charge of the drive, will organize the boy scouts today to canvass the city, asking each housewife if she can spare a few old aluminum utensils for national defense.

Bodien has ordered a sign saying "Daly City Aluminum Drive" which will be placed in front of the city hall, Saturday. At the west side of the city hall a large bin will be placed to receive the aluminumware. An intensive combing of the city will take place, Saturday.

Those who wish to have a boy scout come and take away their aluminum donations may call the police department, RAndolph 42-12. All Daly City boy scout troops will take part in gathering the metal. Individuals are invited to bring their donations to the city hall and add to the aluminum collection in the bin.

Aluminum technical experts in OPM said they expected two main classes of aluminum would be turned in by housewives: wrought aluminumware, made from sheet aluminum; and cast aluminumware, consisting mostly of an alloy containing five per cent silicon.

At the smelters, the two types will be melted down separately. Then the metal will be analyzed to see just what quality it is.

OPM aluminum experts say that in their opinion the metal can be used for aircraft construction, shell fuse parts, bomb fuse parts, battleship parts, tank parts, portable military equipment parts, and equipment carried by the individual soldier.

Drive For U. S. O. Funds Will Close Here This Week

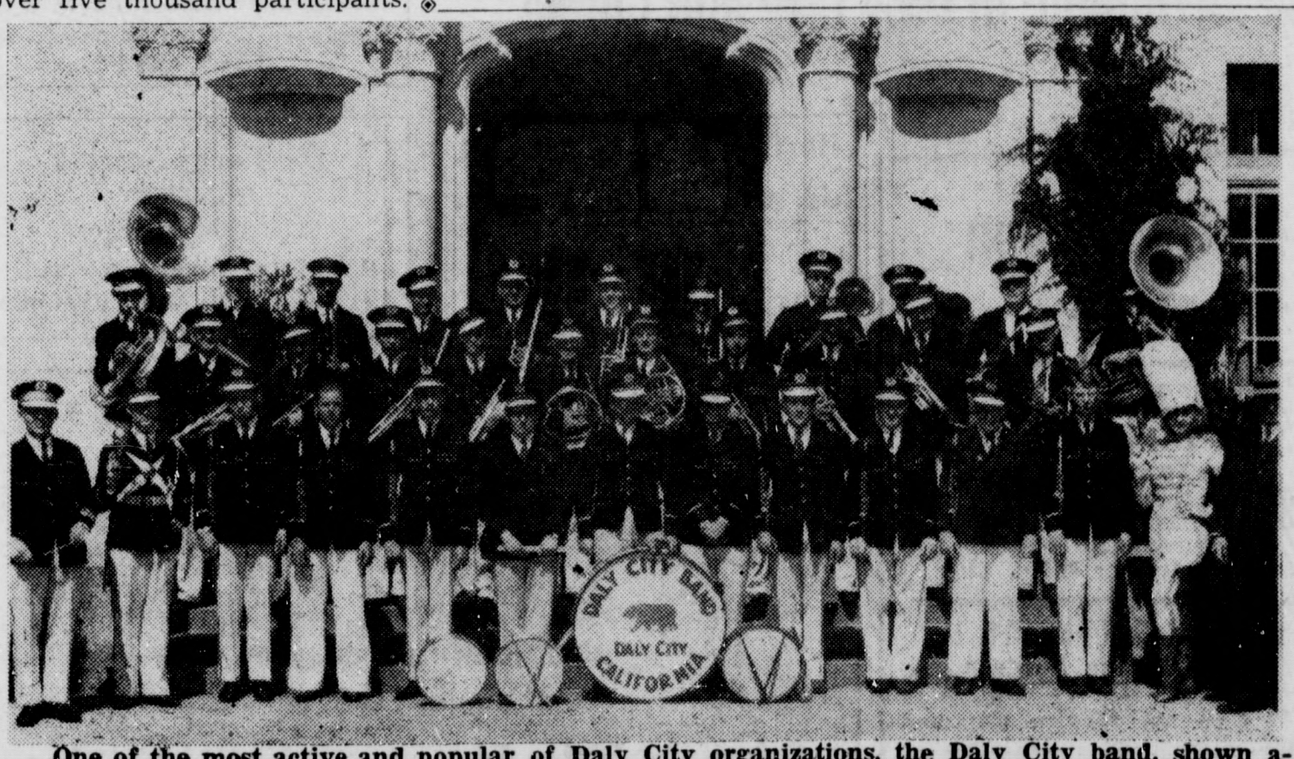
With the close of the local USO drive, this week, money was still gravitating to the office of A. J. Bodien from Daly City people who are interested in supporting the United Service Organizations.

"We'll have over $300 when the entire collection has been completed," predicted Bodien. "On behalf of Mayor John J. Fahey, the USO committee, and myself, I should like to thank sincerely all those who took part in the drive," he said. "Everyone has been very cooperative."

Next week Bodien will have ready a full and complete report of the local USO collections.

Responsible for the complete canvassing of Daly City homes were local girl scouts. The girl scouts also did their part by giving a luncheon-whist, Friday, at the home of Mrs. Lyal Ingersoll, 439 Crocker avenue. Mrs. Ingersoll is senior girl scout advisor. Money collected at the luncheon amounted to $8.05.

Members of the local USO committee are Mayor J. J. Fahey, A. J. Bodien, H. H. Smith jr., and F. Erickson. Money may be turned in to any of these.



One of the most active and popular of Daly City organizations, the Daly City band, shown above, has been invited for the second straight year to be the official band of the Napa fair. Directed by George E. Brenner, the band goes to Napa, Saturday.

Studebaker Shows Production Gain

With a production increase of 43.2 per cent last month over June of 1940, and total shipment to dealers in the Far West representing a 34.7 per cent increase over the corresponding month last year, the Studebaker factory here has been setting new records.

This was disclosed today in a monthly report (for June) of C. K. Whittaker, president of the Studebaker Pacific corporation.

May's retail delivery figure for the seven-state territory, it was noted, had been the largest in history. But the May record was shattered in June by a score of exactly 2568 cars.

Whittaker, in releasing figures for the West coast plant here, also gave out statistics, just received from South Bend, Indiana, the parent plant, showing that national factory sales are already beginning to include the new six-wheel-drive trucks for the U. S. Army.

Robertson Purchases New Studebaker Truck

She was driven back to Daly City by her husband, who motored to Seigler's to bring her back.

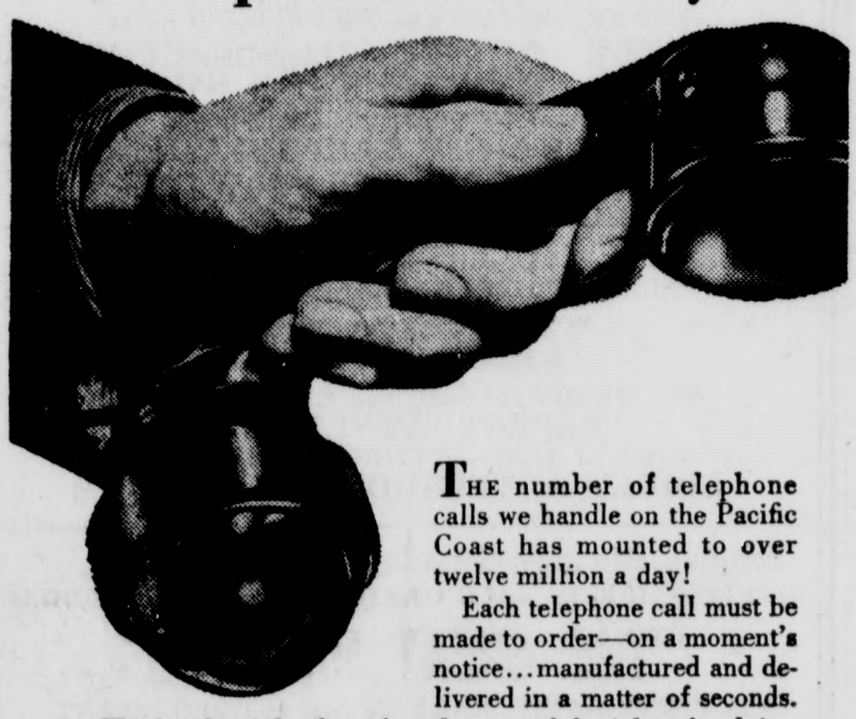
Now—more than 12 million telephone calls a day!



THE number of telephone calls we handle on the Pacific Coast has mounted to over twelve million a day!

Each telephone call must be made to order—on a moment's notice...manufactured and delivered in a matter of seconds.

That's a big job—but it's only part of the job we're doing today as the West hits its stride on National Defense work. Add to this a program of plant additions, this year, in excess of $70,000,000 of which expenditures for new construction alone will be over $57,000,000.

We are making an all-out drive of man power, materials and money to supply the kind of telephone service that will help the Pacific Coast speed its part of America's biggest job.

My Week by Eleanor Roosevelt

WNU Service United Features

I was a little late at City hall in New York city one morning because we encountered some pretty heavy showers, which always slow up driving. As soon as I reached City hall, the mayor appeared and we went at once to the council room, where there was a large gathering.

I was happy to see my friend, Mr. David Dubinsky, amid a number of familiar faces. The girls who modeled the clothes and the girls who sewed in the labels were all as pretty as could be.

These labels have a real significance. They guarantee that labor conditions are good and tell every woman in the United States that she is wearing a dress designed and manufactured in New York city, which today claims to be the fashion center of the world. Mrs. Dorothy Anderson will be the executive director of the New York Dress institute and I am sure that she will successfully promote the wearing of these dresses. Those shown us ranged in price from $1.95 to $295.

I was interested in the speed with which the girls sewed in the labels, and could see that this day was one of real excitement for them. May it also be a day which inaugurates a program providing more work for many people under better working conditions.

SOLDIERS AND SAILORS

I joined the mayor and drove up to the opening of the Soldiers and Sailors club at 99 Park avenue. This is to be a central bureau of information where any soldier, sailor, marine or aviator can find out what is planned and available in recreation along the lines of his particular interests. The lucky boys, 50 strong, who faced us, were all turned over

One of the "lucky boys" of whom Mrs. Roosevelt speaks in this week's column is introduced by the nation's First Lady to one of the pretty Power's models—his blind date for a day in New York.

to very pretty girls, who drew the names of their partners out of the mayor's hat. They then went off to show their escorts the town.

After lunch, I went to the Hotel Astor to see a collection of women's clothes, which a group of English manufacturers have brought over for sale to our big shops. They certainly have some perfectly delightful materials, which I am sure were made in Scotland. It is extraordinary that, in spite of all they have been through, they can still turn out clothes carefully made and showing no sign of being made under unusual conditions. They presented me with a dress they had made for me and brought over. It is very charming and I know I shall enjoy wearing it.

LETTER FROM ENGLAND

I keep receiving letters from people who head the Women's Institutes in England, an organization which is comparable to our Home bureaus and which is affiliated with them internationally. The letters tell me what the seeds we sent have meant to them.

I received a letter from a woman with whom I went to school in England and who lives on the coast there. I quote part of her letter:

"It is splendid to feel that your great country realizes so fully what we are up against and there is a lovely feeling of kinship with all the peoples who are banded together to overcome this embodiment of evil. Indeed this is a righteous war and a crusade to save those who are oppressed. We are all sacrificing everything gladly for the sake of freedom and to save goodness, kindness and self-respect. Life here is curious, such an odd sense and a realization of the impermanence of all material things and possessions. One sows seeds, one plants and cultivates with a detached feeling, wondering subconsciously whether one will be there to reap the crops or whether their progress will be hastened by a bomb."

I can hardly realize that the little girl I remember could have written this letter, but it is one worth our considering.

REACTION ON ICELAND

Everyone that I have seen so far is relieved that the United States is taking over in Iceland, and thereby making sure that no enemy will gain a foothold at the northern end of this hemisphere. I am sure we are going to know more about Iceland than we ever have known in the past.

"THEY TAUGHT THEMSELVES" is the title of an exhibition of over 60 paintings by self-taught artists from near and far parts of this country to be held at the San Francisco Museum of Art from August 5 through September 3. Untutored in the systematic styles of art, the creators of these pictures are truck drivers, storekeepers, housewives, miners and cattle herders who paint as a hobby.

THE NEXT ATTRACTION in the regular series of Sunday concerts presented at Sigmund Stern grove will feature the unique Northern California WPA Negro chorus, directed by Elmer Keeton, Sunday, from 2 to 3:30 p. m. The program will be devoted to spirituals and specially arranged American negro melodies.

THE FIRST PACIFIC COAST WATER SKI CHAMPIONSHIPS have just been awarded to San Francisco by Dan B. Hains, president of the American Water Ski association, according to Paul Verdier, chairman of the Water Ski committee of the California State Chamber of Commerce.

"These championship events," states Verdier, "will be staged by the San Francisco Junior Chamber of Commerce in connection with their Harbor Day celebration, on August 2, and will give to our great San Francisco bay another outstanding aquatic sport. And, because of the absence of the Fleet this year, the water skiing will be an added attraction for spectators, greatly increasing the interest of the occasion.

"The events follow closely those of snow skiing. They will consist of ski jumping from a 24-foot-long platform with a take-off five feet above the water. The slalom will be run between 40 buoys with flags, and the exhibition riding will consist of such stunts as removing one ski while in motion, carrying it in the hand for a period, replacing in on the foot, and continuing; "criss-cross" riding; taking off from deep water on one ski and riding to designated landing; and other techniques necessary to qualify as a Class A skier."

WENDELL L. WILLKIE will be the speaker of the evening, tomorrow, at a monster patriotic mass meeting sponsored by Americans United of Northern California, in San Francisco's Civic auditorium. General chairman for the event is Robert Gordon Sproule, president of the University of California.

The meeting will be free to the public, and doors of the Civic auditorium will be opened at 7 p. m. that evening, Crum has announced. To accommodate an overflow audience, Willkie's speech and the preceding stage program by noted screen, opera, and concert artists will be carried outside of the auditorium by P. A. system to the Civic Center and adjoining Veterans' War Memorial buildings.

Colma Merchants Beat San Mateans

After being held to three runs for six innings the Colma Merchants chased over five runs in the seventh and last inning Sunday at Marchbank field to defeat the San Mateo American Legion nine 8-7.

Spurgeon, of the losers, struck out 14 Colmans in six innings and then weakened to allow five hits and as many tallies, including a three-bagger by Massoni.

Preston was on the mound for Colma and struck out seven. He had weak support in the field, the Colmans being guilty of six errors.

Flyn, of the winners, hit three for four, for the best average at the plate.

Box score for the locals is as follows:

dreds of organizations and groups and committees eager and anxious to go to work. Some of them have already started. We must coordinate all of these forces and assign them to specific duties.

"Now most of this work is purely voluntary. I would say that perhaps eighty per cent of it would be purely voluntary in the field, and I want to stress that. It will be voluntary. However, there will be discipline and divisions. Anyone who joins up will necessarily have to accept a policy that there will be strict and rigid discipline because, of course, we come into action only in times of emergency, and in such times, every individual must know exactly what his task or his job is and must not only be able to give orders, but be able to obey orders."

Local Eagles Trounce S. F. No. 61

It was easy pickings for the Colma-Vista Grande Aerie of Daly City when their soft-ball team met the team of Aerie No. 61 of San Francisco, Sunday, at Vallemar park. The occasion was the Eagles' picnic and the locals triumphed 11-1.

For two innings it was a close contest with both sides going down in order, but in the third the locals went to work. The entire batting order cracked base hits to all corners of the park. Six runs resulted from this outburst. Wilkes and Merrit hit triples. Tallon and Donati formed the battery for the locals and Tallon was never hit hard.

Some sharp plays at second base were made by Joe Molino of the San Francisco boys. It is expected that a return game will be arranged.

Those playing on the Colma-Vista Grande Aerie team were Donati, catcher; Tallon, pitcher; Mendelson, third base; Reardon short stop; Bolger, second base; Bollentini, second base; Hovey, first base; White, short stop; Battye, left field; Wilkes, center field; Merrit, right field; Shaw, center field; Klingler, right field; Patten, Mack, Craig, and Leepin.

Coaches were, for San Francisco, McClellan, and for the locals, Ed Cavagnaro.

VENETO NINE DEFEATS FEDERAL OUTFITTING

With a three-run burst in the ninth inning Veneto Restaurant defeated Federal Outfitting 6-5 at Marchbank field, Sunday. Keating, hurler for the winners, held Federal Outfitting to eight bingles, and knocked a three-bagger and a two-bagger to drive in three runs.

The game was see-saw until the ninth. Going into the last inning Federal Outfitting was ahead 4-3, but lost the lead with poor fielding in the final frame when Veneto scored three runs on one hit. The winners scraped by on five hits.

Mazzetti, pitching for the losers hit a triple in the ninth.

Both teams belong to the Peninsula State League. Veneto, in winning Sunday, kept their unbeaten record intact. It was their sixth straight triumph. Keating, their pitcher, showed the truth of the fact that he is one of the leading hitters of the league with his heavy stick-work before the local and San Francisco fans.

The Federal nine now has a record of two won and four lost. They are a young team, and have suffered more than their share of tough breaks. Sunday's game was the fourth time this season they have lost by one run.

Mazzetta, Federal pitcher, showed some superior slants in holding the Veneto team to five hits. This team has scored twelve runs or more in four of their six games this season.

The game was under the supervision of the Daly City WPA Recreation department.

Colma Bowling Alleys Open

Crowded to the doors, the Colma Bowling Alleys, 7343 Mission street, celebrated its grand opening last night with conspicuous success!

The new bowling center, formerly the Happy-Go-Lucky hall, is operated by Gus Pedemonte and Ray Franzoia, Colma. It has six alleys, duck-pin size. The hall was formerly a dance-hall and there are no poles or other obstructions to impede the view.

The alleys are finished with a new-process veneer, producing a stream-lined effect. Colma Bowling Alleys is open every day. There is plenty of room for spectators, and, according to Pedemonte, "you can come with your friends and be guaranteed a good time at these alleys!"

data secured from surveys in Redwood City and Daly City, and results should be available within the next week.

For each new unit constructed a substandard unit must be eliminated. This rule assures that there will be no more dwellings added to the county through the authority's program, a factor which has caused some concern among persons who believed the housing authority was merely adding new housing units, thus competing with realtors and land developers.

Substandard dwelling units were defined, Johnson explained, as those which were in need of major structural repairs, were unfit for human habitation, or lacked sanitary facilities.

Court St. Mary Plans Aug. 7 Whist

Since Court St. Mary No. 1155, Catholic Daughters of America, held no whist in July, an especially large card party has been planned for August.

The members of the group have appointed a double committee to take charge of the anticipated crowd. Josephine Crudo, Theresa Willie, Agnes Denning and Callista Davis are the chairladies in charge of the event. A committee consisting of the members will assist the ladies.

"Due to the fact that the month of July was quiet, prizes will be doubled and your chances for an award will also be doubled," stated the ladies.

This huge party is set for 8:30 p. m. at Masonic hall. The public is cordially invited to attend, and the price of admission is nominal.

At their last regular meeting in July, the court gave a special "Thank you" to Mrs. Azilda Kohman and her committee for the delicious refreshments served the members at the close of the installation ceremonies.

Chaplain Father Phelan led the members of the organization in a prayer for the repose of the soul of Mary Segale, a charter member of the Court, who passed away during the month of June.

Mrs. Gladys Walden was welcomed back by the group. She had just recently returned from an extensive three months trip in the East.

According to the ladies, many plans are under way for the coming term. As yet no definite schedule has been decided upon by the ladies. After the vacation period when more of the members are able to attend meetings, the group will get down to the regular fall work.

After the close of the meeting, which was presided over by Grand Regent Christine Luebker, lovely refreshments were served in the banquet room. Mrs. Evelyn Weckerle and her committee were in charge of the refreshments. Everything served was home-made.

ICE FOLLIES SET SECOND MATINEE

A second special matinee performance of the dazzling Ice Follies of 1941, now showing nightly at Winterland, in San Francisco, will be held Saturday afternoon, July 26, it was announced this week. The daytime show was set in response to hundreds of requests, the management stated.

Night showings of the spectacular ice revue continued this week to attract capacity audiences. The great cast of international skating stars and beauties are seen in an entirely new production already acclaimed from coast to coast.

Blending the speed, rhythm and grace of figure skating, ballet, and modern dancing into his "white tie and tails" routine, Roy Shipstad, star of the Ice Follies of 1941, can easily be termed the smoothest exponent of sophisticated skating on ice today.

Not content with being the greatest male figure skater in the whole wide world, Roy combines the intricate figures of skating with the svelte, polished dancing of such famed "hoofers" past and present as Vernon Castle, Jack Donahue and Fred Astaire.

In addition to mastering every known phase of figure skating, Shipstad has carved a number of amazingly original steps with his skates which are incorporated in the 40 different figures which compose his routine. Due to the smooth and seemingly effortless exhibition of the Ice Follies star few people realize that he skims over the shimmering ice surface at the speed of 30 miles an hour.

Arch Druidess Violet Hauptli will be general chairman for the impressive ceremony and numerous committees will shortly be named to assist her.

At the July 14 meeting, a class of candidates were also initiated. This initiation included candidates from both Daly City Hillcrest Circle No. 143 and Hacienda Circle No. 169, San Carlos. A large group of members from Hacienda circle were present for the evening.
